

HELP KIDS FROM HOME: COREY FELDMAN OFFERS NEW TRAILER & ANOTHER MONTH OF HIS TRUTH

NOW IS THE TIME TO WATCH AND TAKE ACTION

Almost exactly one month ago, Corey Feldman and his Truth 4222 Productions LLC, premiered his long awaited documentary *(My) Truth: The Rape of 2 Coreys*. In spite of malicious attacks that resulted in a distributed denial of service (DDoS), a total shut down of the service platform and numerous attempts from individuals to profit illegally from pirating the film, Feldman remains focused on the overwhelming response from those who have seen it. Beginning on **Wednesday 4/22**, *(My Truth)* will be streaming on VOD for one month! Advanced electronic tickets will be available beginning on 4/18 at www.mytruthdoc.com

"In the 25 years that Onstream Media has been hosting large pay-per-view streaming events, we believe that The Allman Brothers, live from the Beacon Theatre in 2009, grossed the largest amount of online ticket sales for any webcast; bringing in over \$300,000. Our recent limited run of Corey Feldman's "My Truth, The Rape of Two Coreys" has more than doubled that record" says Randy Selman CEO of Onstream Media Corporation

It didn't take long for both hackers and haters to try and capitalize on this success by pirating the film, which led to hundreds of thousands of people viewing this important documentary illegally. Feldman has proven that nothing will stop him from telling his truth, protecting children and working to change laws, but he needs for people to understand the seriousness of supporting the proper release of the film

Corey Feldman states "Given the world is suffering through so much pain right now ,it is a time to reflect and draw us inwards, as we think about how the world should look when we return to it. This is why I feel the film needs to be streaming for the duration of the quarantine, so we can all learn how to better protect our children from this disease that has no cure."
